Objective

I'm a tech enthusiast with a strong interest in web development and creating innovative solutions. I enjoy diving into new challenges and continuously expanding my knowledge through hands-on projects. My journey in tech has driven by curiosity and a desire to build things that have a real-world impact. I'm excited about opportunities that allow me to grow, collaborate with like-minded people, and contribute to meaningful projects.

Skills

- **Frontend:** React.js, Redux, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, Bootstrap
- **Tools:** Firebase, GSAP (Animations), Git, GitHub
- **Web Development:** SEO, Responsive Web Design

Projects

Crypto Screener (React.js, JavaScript, React router, CoinGecko API, TailwindCss)   **Github - Live**

- Developed a cryptocurrency tracking website to display real-time prices of digital coins.
- Integrated CoinGecko API to fetch and display dynamic data on the website.
- Implemented React Router for single-page application (SPA) navigation without page reloads.

Coffee Tracker (React.js, JavaScript, TailwindCss, Firebase)   **Github - Live**

- Built a web application that allows users to log coffee consumption and track their caffeine levels in real time.
  - Developed a dynamic caffeine level calculator based on beverage type and time.
  - Integrated Firebase for user authentication and real-time data storage.

Student Activities

Web Developer for X-Project   **Nov 2023 – Jun 2024**
• Contributed to the development and maintenance of the X-Project website using HTML, CSS and JS.
• Managed and updated the crew section, including details about team leaders and heads of the activity.
• Gained teamwork and project management experience in a collaborative environment.

Education

CS50x: introduction to Computer Science - Harvard University (Online)   **May 2024 – Aug 2024**
• Gained proficiency in problem-solving, algorithms, data structure and web development (HTML, CSS, JS).

Responsive Web Design Certification - FreeCodeCamp   **Aug 2024 – Oct 2024**
• Developed skills in creating mobile-friendly, accessible web designs using HTML and CSS.

Faculty of Commerce - Cairo University   **2021 – 2025**

Major: Accounting | GPA: 3.5

• Gained proficiency in data analysis, critical thinking, and attention to detail.
